

# AV CONCEPTS

The Meeting Technology Specialists

## EXHIBITOR SERVICES

Managing the needs of your exhibitors can be a job in itself. AV Concepts will take care of the details for you. We understand the needs of the exhibitor and can provide the support needed to deliver superior quality products and extraordinary service. Should exhibitions take place at a single or multiple venues, our on-site staff has the experience and resources to coordinate seamless operations anywhere.

**Consultation.** We work with your exhibitors to find the best solution for them, and can design the full program or only part of it, well in advance of the event. We have the know-how and products to get the job done and meet budget demands.

**Comprehensive Service.** One source for all exhibition requirements, including all technology solutions. A complete range of computer equipment, audio video equipment and intelligent lighting. All with professional installation, design and operation.

**Convenient.** Online ordering capabilities and on-line order confirmation.

**Dependable.** Scheduled deliveries, advance confirmation for all time lines.

**Conscientious.** Dedicated on-site service teams provide product knowledge and technical support on the show floor to ensure a successful event. On-site back-up equipment for equipment replacement and last minute needs.

**Knowledgeable.** No one knows more about meetings, exhibitions and convention services than AV Concepts. We have years of experience; an excellent, knowledgeable staff; and the most comprehensive suite of equipment in the business.
