New LCD Lectern at AV Concepts

TEMPE, AZ, March 22, 2007: AV Concepts has recently acquired a distinctive LCD lectern. It prominently displays a 40' LCD screen that can be mounted horizontally or vertically. It is typically operated from a dedicated computer and gives high-status visibility to company and association logos. It also supports video, and screen imaging can be animated to varying degrees to cater to budget or taste. The lectern has particular appeal for sponsors because it makes their presence very high profile during the event, and puts them center stage for event photo or video documentation.

AV Concepts is a national, full-service supplier of audio-visual, staging and technical support for meetings, conventions and trade shows. The company provides the latest in video, audio, and lighting equipment. With 20 years of industry success, AV Concepts specializes in peace-of-mind for corporate, convention and staging events.
