AV Concepts Adds ParLite LED Lighting Fixtures to Inventory

TEMPE, AZ, November 10, 2006: AV Concepts is pleased to announce the recent addition of the Coemar ParLite LED Lighting Fixtures in its inventory. The Coemar ParLite LED can be used in lieu of traditional pars and scrollers resulting in a number of benefits including no heat and the ability to replace two instruments with one. The ParLite LED operates in stand-alone mode for small décor applications with built-in automated programs for fast set up. The unit is fully DMX controllable with built-in DMX processing and a 6-channel profile. With a 100,000 hour average lamp life, AV Concepts expects demand for these instruments to be high.

AV Concepts is a national, full-service supplier of audio-visual, staging and technical support for meetings, conventions and trade shows. The company provides the latest in video, audio, and lighting equipment. With more than 19 years of industry success, AV Concepts specializes in peace-of-mind for corporate, convention and staging events.
